federate Convention.

The third annual convention of Congress for the Cape Charles harbor and a like demand has been made at the present term, which the Committee on Rivers and Harbors have recommended on certain conditions, to wit: "that none of the money shall be expended until and except the owners of the property make an absolute conveyance to the Government of the harbor and a public landing and the approaches to the same," Our present able and efficient representative, Hon. W. A. Jones; in other words, has a way of going to the bottom of things and as the representative of the people has not been able to convince himself that it is right to take the people's money to the public, but to the N. Y. P. & N. R. R. and the estate of Hon. W. L. Scott. As such representative he opposed the appropriation, in behalf of the people, until the harbor was made free to them and his opinion very properly prevailed before the Committee. Now it remains for the Committee. Now it remains for the N. Y. P. & N. R. R. To say that the appropriation asked for, to be applied as heretofore, is in the interest of the public, is, to put it very mildly, mere twaddle.
